PROGRAM INFORMATION

1. Pay the \$50 advance reservation deposit (within 30 days of notification) to be placed on the wait list. This fee applies towards tuition upon registration into classes.
2. **Pre-Surgical Technologist requirements:** Students must complete Medical Terminology, General A&P, Functional Microbiology and Written Communication prior to beginning the first surgical technology courses. Students who reach the top of the list, but do not have these Pre-Surgical Tech classes completed will be removed from the waitlist and will have to reapply.
3. The Surgical Technologist program currently accepts 20 students per fall semester. The waiting list is approximately three years from the semester for which you apply for residents of our district. A Computerized Random Selection (CRS) process will be used to assign qualified applicants to a place on the waiting list according to the date of the complete application.

4. **Time Management:** When planning your time as a student in the program, be sure to consider all aspects of your life and current responsibilities. Allow additional time for traveling to and from classes and clinical activities. Include sufficient time for studying and for skills lab practice. A ratio of two to three hours of study time is recommended for each credit in which you are enrolled. This is an addition to the actual time you are in class. If you plan to work, try to balance your work, your personal responsibilities and study time so that you have the best opportunity for success. Most students find an average of 20 hours of work outside scheduled class and study time is the maximum they can handle.
